

# Assignment 1

## Objective:

- Display your name on a 16x2 character LCD in a sine wave pattern, scrolling from one line to the next, and then repeating.

## Components:

- ATmega32 microcontroller
- Character LCD 2 \* 16 display
- Resistors
- wires

## Circuit Setup:

- Connect the 16x2 LCD to the ATmega32 microcontroller.

## Programming:

- Initialize the LCD for display.
- Write a function to display your name in a sine wave pattern .
- Continue the pattern, scrolling the name back to the start after reaching the end of the LCD.
